FAHS Member Celebrates a Birthday!

At the FAHS November meeting, members celebrated Bill Buston's 93rd birthday with lunch and a birthday cake.

Bill is a founding member of Florida Aviation and for 37 plus years a volunteer at the Sun 'n Fun fly-in. It all started in 1978 when Bill stopped at the fly-in and helped out for a couple of hours.

He continued along for many years in his red vest on a motorcycle working Ground Safety. He actually rebuilt a small scooter that was better riding under the wing of an airplane, keeping people from walking out towards spinning propellers, directing planes and keeping the flight line safe.

Now when Sun'n Fun rolls around, you will find Bill helping out at the Florida Aerospace building that houses airline memorabilia, including National Airline displays.

Bill says, "the most rewarding part of the volunteering is helping people."

Happy Birthday, to one of the best helpers!
